CHRISTOPHER MUTIE WACHIRA

Phone Number: 0716644436 Email: Christopherwachira57@gmail.com Residence: Nairobi

PROFILE

Bachelor of Business Information Technology graduate with hands on experience in ICT support and a growing focus on software engineering. Skilled in programming, web development, databases, Android development, version control and computer networking. Experienced in troubleshooting IT systems, supporting users, and resolving hardware and software issues. Passionate about building reliable, scalable and secure technology solutions and continuously developing skills in software engineering, artificial intelligence and emerging technologies.

EDUCATION

2024 – 2026: KCA UNIVERSITY

Bachelors in business information technology.

2021 – 2023: STRATHMORE UNIVERSITY.

Diploma in Business Information Technology.

EXPERIENCE

ICT Atachee, Nairobi January 2026 - April 2026

Ministry of Lands – Nairobi

During my time at the Ministry, I gained hands on experience as I

- Installed and configured operating systems and application software across multiple workstations.
- Diagnosed and resolved hardware and software issues minimizing downtime.
- Configured and maintained peripheral devices including printers and scanners.
- Provided technical support to 50+ end users on internal ministry systems and applications.
- Assisted in troubleshooting network connectivity issues.

ICT Atachee, Nairobi June 2023 - August 2023

Ministry of Lands – Nairobi

During my time at the Ministry, I gained hands on experience as I

- Installed and configured operating systems and application software across multiple workstations.
- Diagnosed and resolved hardware and software issues minimizing downtime.
- Configured and maintained peripheral devices including printers and scanners.
- Provided technical support to 50+ end users on internal ministry systems and applications.
- Assisted in troubleshooting network connectivity issues.

TECHNICAL SKILLS

•**Programming:** Python, Java, C++, JavaScript, SQL

•**Web Development:** HTML, CSS, JavaScript, Next.js, REST APIs

•**Backend and Databases:** FastAPI, PostgreSQL, Prisma, Firebase

•**Mobile Development:** Android, Kotlin, Jetpack Compose

• **Development Tools:** Git, GitHub, VS Code, Android Studio, Unity

• **Concepts:** Object-Oriented Programming, Data Structures, Database Systems, API Development, Software Testing, Version Control

•**Other:** Computer Networking, ICT Support, Hardware & Software Troubleshooting

CORE COMPETENCIES

- Teamwork and collaboration
- Proficient in verbal and written skills
- Proficient in Microsoft office applications
- Keen observer of deadlines
- Communication and Organization skills
- Able to work under minimum supervision
- Analytical and problem solving skills

PROJECTS

AgriCore – Farm Management System

- Developing a full-stack farm management platform for managing farm operations and agricultural data.
- Implementing authentication, backend APIs, database functionality, and a modern web interface.
- Applying software engineering principles focused on security, scalability, maintainability, and performance.

JerseyShop — Full-Stack E-Commerce Platform

- Developed a full-stack e-commerce platform for browsing and purchasing football jerseys.
- Built the application using Next.js, TypeScript, Tailwind CSS, Prisma, and PostgreSQL.
- Implemented product browsing, filtering, pagination, shopping cart functionality, authentication, and order management.
- Designed the application with scalability, security, maintainability, and performance in mind.
- Integrated database operations through Prisma and PostgreSQL.

LANGUAGES

English Kiswahili

INTERESTS

Researching and experimenting with emerging technologies particularly integrating artificial intelligence into software systems to enhance automation, efficiency and user experience

Playing football and team sports

Board games like chess, scramble, monopoly
